

CARRIER-IN-A-BOX

Done-For-You Motor Carrier Launch & Management Packages

Carrier-in-a-Box — Done-For-You Motor Carrier Program

We form, fund-ready, launch, and manage a motor-carrier operation end-to-end — then run it for you under a management and consulting agreement. Choose a launch tier; add monthly management to have us operate it. Government/third-party fees are separate.

STARTER \$7,500 • LLC/Corp formation + EIN • USDOT + MC authority, BOC-3, UCR • Insurance coordination (COI/BMC-91) • Business bank account setup • Setup of fuel card + ELD + tolls • Carrier-in-a-box SOP + templates	GROWTH \$15,000 MOST POPULAR • Everything in Starter, PLUS: • Full business credit foundation (D-U-N-S, tradelines) • Funding-readiness + lender packaging • Truck financing / PG structuring support • Dispatch + factoring setup (Bluegrass-style) • Live operating portal (loads, settlements, driver pay) • 30-day launch support	EMPIRE \$25,000 • Everything in Growth, PLUS: • Multi-truck fleet structure • Investor/PG documentation framework • Corporation setup + governance docs • Full management handoff or ongoing mgmt • 90-day launch + scaling support • Priority CFO/COO onboarding
--	---	--

Each tier includes recoup of build/launch IP we developed proving this model. Government & insurance fees billed at cost, separately.

ONGOING MANAGEMENT — CFO/COO SERVICES (we run it for you)			
1-truck (owner-operator)	each additional truck	Example: 3 trucks	Larger fleets
\$5,000 / mo	+\$2,500 / mo	\$10,000 / mo	Custom / salaried team

Management fee is paid before profit. It funds the salaried CFO/COO role required to run the corporation properly (see cost model).

HOW THE MANAGED OPERATION PAYS OUT (per the SOP)

Gross load revenue → Dispatch + factoring 21% → Fuel → Driver 20% → Asset carrier (truck/insurance/maint.) weekly → CFO/COO management fee (\$5,000/mo base) = Remaining profit split 50/50 (owners)

CARRIER-IN-A-BOX

CFO/COO Cost Model & What's Included

Carrier-in-a-Box — Done-For-You Motor Carrier Program

WHAT IT COSTS TO STAFF THE CFO/COO ROLE (so the corporation is legit)

A corporation that wants clean books and the ability to bring in investors must pay a real salary to the person running it. Below is the market basis for that role — this is what the monthly management fee funds.

Fractional CFO (market rate)	\$200–\$350 / hour
Fractional COO (market rate)	\$150–\$300 / hour
Full-time CFO salary (small co.)	\$120,000–\$180,000 / yr
Full-time COO salary (small co.)	\$100,000–\$160,000 / yr
Our blended fractional rate (your floor)	\$150 / hour
1-truck managed fee covers	full CFO + COO service for the operation

As a corporation scales and brings on investors, the CFO/COO role becomes a salaried W-2 position funded by the management fees across the fleet.

CONTRACTS INCLUDED WITH EACH PACKAGE (legal protection)

- Management & Consulting Services Agreement (provider ↔ client carrier).
- Carrier Setup / Launch Statement of Work + deliverables checklist.
- Revenue waterfall & payout schedule (signed by all parties).
- Investor/Personal-Guarantor documentation worksheet (for the asset funder).
- IP license — the system is licensed for the client's use only, not resale.
- NDA + non-circumvention (protects the model and methods).
- Driver 1099 agreement + settlement template.

PACKAGE DOES NOT INCLUDE THE TRUCK — FINANCING REQUIRES YOUR CREDIT & DOCS

To finance a truck, YOU or a qualified signer must have a 700+ credit score, verifiable revenue/income, tax returns, and bank statements, and will sign a personal guarantee. The truck (down payment + payments), insurance premiums, government/filing fees, fuel, maintenance, and ongoing operating costs are SEPARATE and not included in the package price. We package the application; approval is the lender's decision — we do not lend.

BEFORE SELLING SHARES / EQUITY TO INVESTORS — READ

Selling shares or equity to raise money is selling securities and is heavily regulated. Do NOT offer shares to any investor until a securities attorney sets up the structure. This package sells management services — not securities. Keep them separate.
